Yes. I was off one day on the calendar dates. Thursday evening or Friday morning are the times.

Isn't Friday the 29<sup>th</sup>? We better confirm with Runkel the exact days of his availability.

Bill – After we talked this morning, I was able to reach Brent Lewis at BLM, who is the Project Officer for the Interagency Agreement between BLM and USGS that is supporting the OTEQ modeling for the Upper Animas Site. He was able to contact Rob Runkel at USGS and reconfirm his availability for the month of August.

Rob will be in Silverton on other USGS business the week of August 25<sup>th</sup> – 28<sup>th</sup>, and he would be available to talk to ARSG on Thursday evening (27<sup>th</sup>) or Friday morning (28<sup>th</sup>). Brent will reach out to Peter Butler of ARSG to determine whether they could reschedule their meeting (by two days) to accommodate this presentation from Rob.

Brent will get back to me, once he hears from Peter Butler.

ps: Martin just stopped by my office, so I shared all of this with him.
